Jen Kershaw - Saylor - ...
rectangular prism. The volume of
a three-dimensional figure is a
measure of the amount of space
that it occupies. Volume is
measured in cubic units. Area of
base Height of prism
EXAMPLE
1 Finding the Volume of a Prism
Find the volume of the prism.
15 yd 8 yd 6 yd $V = Bh$ Write
formula for volume. $= 6(8)$
15 Substitute. $= 48$
Simplify. $= 720$ Multiply.

Department of Mathematics -
Triangular Prism Volume
Formula. The volume of a
triangular prism can be found by
multiplying the base times the
height. Both of the pictures of the
Triangular prisms below illustrate
the same formula. The formula, in
general, is the area of the base
(the red triangle in the picture on
the left) times the height, h . The
right hand picture illustrates the
same formula. Fri, 20 Apr 2018

Questions - Corbettmaths - The
dual of a triangular prism is a
triangular bipyramid. The
symmetry group of a right 3-sided
prism with triangular base is D_{3h}
of order 12. The rotation group is
 D_3 of order 6. The symmetry
group does not contain inversion.
Volume. The volume of any
prism is the product of the area of
the base and the distance between
the two bases. Wed, 11 Apr 2018
